

THE BLAIRMORE ENTERPRISE

VOL. XVI, NO. 51.

THE BLAIRMORE ENTERPRISE THURSDAY, DECEMBER 17, 1925

According to reports presented to the Alberta association of municipal districts, the rural municipalities of Alberta are in a favorable condition. Against an assessed value of \$75,000,000, there is a debenture indebtedness of only \$60,000, one third of which is in one district. Forty per cent of the districts had no money borrowed last year for any purpose, and of those which borrowed all but twenty-nine paid their loans in full at the end of the year.

UNITED SUNDAY SCHOOL TO HOLD XMAS CONCERT

A Christmas concert will be given at the Orpheum theatre on Tuesday next, December the 22nd, at 8 p.m., by the children of the United Sunday School.

A full two-hour programme will be rendered.

All children of the Sunday school will be admitted free. Other children will be charged 15 cents, and adults 35 cents.

"CHARLEY'S AUNT" TONIGHT

The entire seating capacity of the Blaimore Opera House has been sold for the first appearance of "Charley's Aunt," which is being staged by the Blaimore Elks' Dramatic Club. Up to Saturday night last close on 300 reserved seats had been sold and up to time of going to press a committee has been busy hanging hammocks in the rafters for the accommodation of those who were unable to find a place on the main floor or galleries.

The Hillcrest Amateur Orchestra, under the able leadership of Mr. J. E. Upton, of Blaimore, will be present. This orchestra contains about twenty-four instruments and will be well worth the admission price in itself.

The curtain rises tonight promptly at 8 o'clock.

The play will be repeated at Coleman tomorrow night, under the auspices of Coleman Lodge of Elks, and we venture to assure Colemanites that they are in for the treat of their lifetime.

ALBERTA HOTEL UNDER NEW MANAGEMENT

During the past few days a slight change has been made in the management of the Alberta hotel here, which for some time has been very well conducted by Mr. and Mrs. Paul W. Kuschel.

Mr. Kuschel, we understand, has purchased an hotel at Warner, Alberta, and left for that point on Tuesday night. Mr. Bassett, of Lethbridge, has assumed the management of the Alberta hotel.

The Warner hotel is one of the best known and finest small hotels in the province, and was but recently purchased by Mr. Kuschel from Mrs. J. A. Lathrop.

Mr. McMurchie, of the C.P.R. staff here, is enjoying his annual vacation. There is no truth in the report that Mae is taking unto himself another wife.

OFFICERS OF MINING INSTITUTE ELECTED

At the annual meeting of the Rocky Mountain Branch of the Canadian Institute of Mining and Metallurgy, held at the Greenhill hotel, Blaimore, on Friday, December 11th, the following officers were elected for the year 1925-26:

Chairman—Mr. Moore Johnson, of Blaimore.

Vice-Chairman—Messrs. Robert Strachan, of Fernie; and William S. Henderson, of Calgary.

Executive—Messrs. G. C. Richards, Calgary; B. Canfield, Fernie; J. Stewart, Nordegg; R. Livingstone, Lethbridge; L. P. Robert, Blaimore; David Davidson, Coleman.

Treasurer—J. T. Stirling, Edmonton.

Secretary—B. L. Thorne, Calgary.

Auditor—F. J. Smith, Hillcrest.

At this meeting, Mr. Lewis Stock, etc. general superintendent of mines with the department of natural resources of the C.P.R., Calgary, was nominated for the office of president of the federal body, the Canadian Institute of Mining and Metallurgy; and Mr. Robert M. Young, general manager of the Canmore Coal Company, Limited, was nominated for the office of councillor.

EIKS' CHRISTMAS TREE ON MONDAY NEXT

The biggest-branch affair in Blaimore, the Elks' Christmas Tree, which is looked forward to by at least seven hundred children, will be held this year at the opera house on Monday next, December 21st, at 7 p.m.

A splendid programme has been arranged for the entertainment of Santa Claus, who will reach Blaimore from the North Kootenay Pass about 5 o'clock, and programme with include a number of dialogues, choruses, dances, etc., by school children. About seven hundred parcels are being brought in by Santa's train.

GIVEN THREE YEARS FOR SHOPBREAKING

A character with considerable of a criminal and prison record appeared before His Honor Judge McDonald here last week end, charged with on various occasions breaking into stores at Pincher Creek, Macleod, and other points and stealing cash and goods therefrom. It was found that his past record included several terms in prison, and the judge on this occasion awarded him another of three years duration.

The man was taken to Lethbridge on Saturday night, accompanied by two men from the local A.P.C. detachment.

CALENDARS FOR 1926 OR 1927

We wish to inform the merchants and others in the Crows' Nest Pass that we are just in receipt of a beautiful line of calendar samples from one of the most reputed Canadian houses. These are priced lower than any traveller can possibly quote you, this because you do not have to pay the enormous extra price to cover travelling expenses of an outside salesman.

Call in at The Enterprise office and see these, if you are short of supply for the 1926 season or require them for 1927.

A recent issue of the Halifax Herald states that the American Radio Relay League are now receiving consistently signals from Australia, which are being sent out from Australian amateur radio stations, and so far about seven different Australian amateurs have been logged during a week. The most consistent station to be heard is a 3-E-F, of Victoria, South Australia.

A Gift that Increases in Value

WHAT DID YOU GIVE LAST CHRISTMAS?

Toys for the kiddies—more of them broken by now. "Something useful" for the grown-ups—now worn out or forgotten. Cash to your employees—appreciated but soon spent. Other presents—hurriedly bought and perhaps forgotten. Any they remembered now?

Suppose this year you give them each a Bank Book containing an initial deposit, and urge them to add to it regularly. Could anything be more suitable?

Add "Royal Bank Book" to your list of Christmas Gifts.

WORLD HAPPENINGS
BRIEFLY TOLD

John R. Booth, Canadian lumber king, died last night at his home in Ottawa. He was 98 years of age.

The quarantors of the British Empire Exhibition are now being called upon to pay 75 per cent. of the guarantee—that is, 15 shillings for every £1. Field Marshal Viscount Allenby will make a tour of Canada early in the new year and will reach Victoria in March.

The House of Commons has given final approval to the bill to give effect to the new Irish boundary agreement, passing it through its second and third readings without a division.

The failure of Canada's wheat to take first place in the Chicago International is blamed by experts on the short ripening season of this year.

A motion picture to authorize the use of the hash on men convicted of the sale of narcotic drugs, was unanimously passed in the U.S. legislature at Victoria.

Sir H. Hall Caine is in Palestine, where he is writing a book on the life of Christ. It is not expected that he will return to the land of Man until next spring.

Quarantined in his home with diphtheria, Rev. T. O. Goller, Episcopal clergyman, delivered a sermon by radio to a congregation in his church at Pueblo, Colo.

Glasgow Corporation recently banned the use of intoxicants at civic functions, and now Aberdeen has followed Glasgow's lead by declaring that at civic ceremonies henceforth liquor will be prohibited.

The League of Nations Council has decided to invite the United States, Russia and Germany to participate in the work of the special commission which is to prepare for an international disarmament conference.

The largest air express in the world is to be fitted as the first air restaurant car and will be put into service between London and the continent. The saloon has luxurious armchair seats for 50 passengers.

Power to place an embargo on shipments of coal from U. S. to Canada and other foreign countries will be given under some of the proposals for coal legislation now being made in congress. Little progress is expected this session, however.

Another Innovation For Turkey

Modern Motor Hearse Has Been Introduced in Constantinople

The westernization of Turkey has touched even its funeral rites. The motor hearse has been introduced in Constantinople. This innovation is the work of Emin Bey, the revolutionary Prefect of Constantinople, who has decided that the old custom, which prescribed that the nearest male relatives of the dead should carry the coffin on their shoulders to the grave, involves unnecessary hardship. He himself purchased the new hearse. The first Occidental style funeral with a motor hearse was held in Constantinople recently for Hilar Bey, a young director of the Turkish Bank, killed in an automobile accident.

Another Boom In
Passion Play Village

Many Attracted By Celebration of Unveiling of Crucifixion Group
Oberammergau, the Passion Players' village, left destitute by the World War, again is attaining a measure of prosperity. American orders for carvings have kept the people busy for a year, due principally to the visit of Anton Lang and other Passion Players to the United States.

The village's wealth was considerably enhanced also by the recent fiftieth anniversary celebration of the unveiling of the Crucifixion group presented by the King Ludwig II. of Bavaria. The celebration attracted almost as many visitors daily as does the Passion Play.

To Acquire Country Elevators

Acquisition of country elevators has been decided upon by the board of the Manitoba Wheat Pool which has notified the United Grain Growers, Limited, that it is prepared to lease or purchase their elevators at points where the pool locals have decided to acquire a pool elevator.

Sea Fish Catch

The sea fish catch on both coasts in Canada for the nine months—January to September, 1925, was worth \$19,997,619 as against \$18,115,486 in the same period, 1924, an increase of \$1,882,133.

C. N. R. Earnings
Road More Prosperous Than It Has
Ever Been Since Sir Henry
Thorton

The Canadian National Railway system is more prosperous today than it has ever been, said Sir Henry Thorton, after spending three weeks in Britain and France. "It is predicted that the earnings for this year, given good weather conditions, will be close to \$100,000,000. The bulk of the remarkable increase in earnings was due to lower operating costs, brought about by greater efficiency in management and the increased devotion to the coast-horn by the employees."

"I am satisfied that the whole-hearted support of its officers and men is the most valuable asset which any railway can possess," said Sir Henry.

Operating efficiency had been possible only in the Canadian National Railway had avoided the rock-throwing and many state-owned institutions in the past—the encroachment of politics.

"The present political creeps in, handicapping the officers, who are disheartened," Sir Henry said. "We have run the road as a business proposition, refusing to admit any political interference and refraining from interfering ourselves in any political situation."

"We in Canada have just come through a very hotly-contested election, and I think it is a generally recognized fact that throughout the campaign we kept the railway out of politics."

Sir Henry predicted an increase of immigration from the Old Country to Canada during the coming year. "Our immigration policy is just getting into its stride," he said, "and I believe it is going to produce very satisfactory results."

"The Old Country has touched bottom, and from now on things are going to improve," said Sir Henry. He remarked that in France everybody was working. "The French Government may be involved in financial difficulties," he said, "but the French people give every evidence of being highly prosperous."

Not Going To Strangers

British Boys Will Find Friends In Australia

It is a great thing that the party of 10 British boys who left London for Australia should have been received by the Prince of Wales. From him in person they learnt with what warm sympathy he follows them. They go, as he told them, not to a foreign country or to a strange land, but to live among people of our own British stock. The Big Brother Movement ensures for them the help of true friends in their new surroundings. For that reason it and the Scout Movement might be termed the two most beneficent movements of modern times.

Each little brother who sails from England will find in Australia a big brother to watch over his happiness and give advice and aid. The feeling of brotherly love and comradeship which settles down in the past when they made a journey of 12,000 miles to a strange land will be entirely renewed—Overseas Daily Mail.

Object To New Order

Turks At Erzerum Do Not Take Kindly To Wearing Hats

A revolt has broken out at Erzerum against the modernization policy of the Ankara Government. Great masses of the populace closed the shops and refused to go to the governor's house, shouting: "Down with irreligious officials." Martial law was declared, and many have been arrested. Erzerum is the principal city of Turkish Armenia, and is the capital of the vilayet of same name. Its population is about 50,000. It will be recalled that under the government of Mustafa Kemal, the Turkish Assembly recently passed a law declaring the wearing of any headgear except the hat to be illegal. There were only two dissenting votes, but this step toward modernization has caused much resentment.

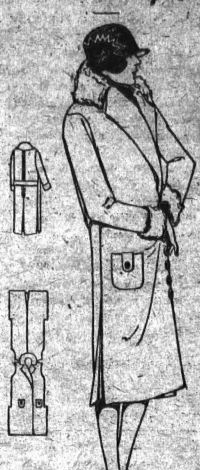

Airmen Attempt Great Feat

Described As Attempt Europe With South

Commander Casagrande with three other airmen have started in an attempt to connect Europe with South America. The route will be from Rome, Chicago, Cape Verde Islands, Pernambuco, Rio de Janeiro, Buenos Aires, about 7,000 miles. The airmen will use a monoplane with two engines, totally enclosed fuselage, and with two 250-hp. engines. They have also added to the plane 14 tanks, and more than 5 cwt. of oil. In addition to this the machine can carry a load of two tons.

Danger In Short Skirts

Influenza and Rheumatism Follows Train of Fashion Says London Physicians

London is having an epidemic of short skirt influence, a chill often followed by rheumatic pains in the knee and hip joints, the sufferers being women who wear the fashionable scanty skirts in spite of the inclemencies of the London winter. Physicians say this year's style exposes women to illness more than ever, since the skirts are short and flowing, not affording even the warmth of the short tight skirt of a year ago. The wearing of warm knickers with the modern skirts is being advised by doctors.

Canada's War Obligations

Large Payment Must Be Met In Next Twenty Years

The Financial Post of Toronto has been playing Canada's financial condition and calls for the formulation of some definite plan to take care of the war debt. During the next 30 years Victory War loan issues to a total of approximately \$2,000,000,000 will become due and payable. It is unlikely that this debt can be wiped out by the young country like Canada with in the period stated. Yet it is seven years since the armistice was signed and nothing has been done to make plans to take care of this situation. Action Free Press.

A Novel Film Studio
Movies Dealing With Public Health
Produced In England

A film studio which produces novel features is situated in the back garden of an old house in Bournemouth, London, England.

Here are produced, under the guidance of Dr. R. King Brown, medical officer of health for Bournemouth, propaganda pictures dealing in matters of public health and well-being. Subjects of the films include child welfare and the prevention of contamination of food by flies.

Dr. King, who is in charge of the propaganda work of the department, acts as producer, camera man, and writer of the "subtitles," while all the actors are clerks, doctors, and nurses on the staff of the department.

On a large wooden platform at the bottom of the garden the various scenes are "shot," and whenever filming is in progress a large crowd of Bournemouth children may be seen gathered outside the wall, hoping for jobs as scene-shifters or "spongers."

This "Bournemouth" is given in a straightforward way, and is not wrapped up in stories with imaginary characters.

Dr. Conna says that he finds people pay more attention to the advice given if it is done this way. After all, it is so easy to make baby's bath time into a humorous episode if one is not very careful.

The only part of the work not done by the health department staff is the developing and finishing off of the films. This is a highly technical matter, and is better left in the hands of experts.

Will Explore Sunken City

Streets of Submerged Town Plainly Seen By Experts

An Arab fisherman of Jericho, the "Isle of Lotus Eaters," recently returned home with a strange story. He said that bending over the side of his little boat, about five hundred yards from the shore, he had seen what looked like a city at the bottom of the sea. His story was at once investigated by experts. They also saw the city under the sea—they could not believe their eyes.

It is believed that this submarine town is one of the ancient ports of the Phoenicians, and it is hoped that information of the greatest value regarding this people and their civilization will be gained as a result of further investigations. A preliminary survey is to be carried out by aeroplanes, and after that it is probable that divers will explore the sunken city.

Submerged cities, said, or are reputed to exist in other parts of the world. The Dutch will tell you that several ruined towns are sunk at the bottom of the Zuider Zee, and the legendary city of Atlantis is said to lie off the coast of Iceland. On quiet days, so the fishermen of the region will assure you, the tinging of the bells in the spires of its sunken churches may be heard at sea.

A Self-Imposed Bill

Fifty Millions Wagered On Canadian Tracks In 1925

The deduction is made from official figures at Ottawa that nearly fifty million dollars was wagered at the Canadian tracks in the 1925 season.

That amount is greater than the bank clearings at the city of the same of Kitchener or Fort William, or Brandon. It is almost equal to the value of the whole Canadian barley crop for 1924. It is the equivalent of the selling price of our combined crops of mixed grain, buckwheat, beans, peas and rye. In terms of potatoes it was enough to buy the whole Canadian crop, which sold in 1924 for \$47,450,000.

The money bet on horse racing would come within six millions of paying for all the horses in the province of Ontario; it falls short by a similar amount of equalling the value of "country butter" produced in all Canada for 1924. It exceeds by a good margin the value of all the minerals taken out of British Columbia in a year.

It is put it another way, it's about fifty million dollars more than the people can afford—London Advertiser.

First Navigator To Circle Earth

The circumnavigation of the earth was accomplished by the years 1492 and 1822; and the honor of the achievement belongs to Magellan.

A native of Portugal in the service of Spain, he sailed from San Lázaro, Spain, in 1492, with three ships, and entered the Pacific by passing around the southern extremity of South America through the strait that bears his name.

World's Largest Motor Ship

Sweden Has Most Modern Example of Marine Architecture

A new visitor has made his bow to New York harbor. The new motor ship is the Grönsjö, the largest motor ship in the world, and the largest to fly the flag of Sweden. Flying the house flag of the Swedish American Line, she left Göteborg November 21 on her maiden voyage.

The Grönsjö is of 23,500 tons displacement and 5746 feet long. Driven by two giant Diesel engines, she is one of the most unusual vessels afloat, and is the most modern example of marine architecture, burning neither oil nor coal but using electricity throughout the ship—her power, heat and cooking. Her two funnels are partly ornamental and partly for use as elevator shafts.

The Boats (chaffing)—"If there is a mistake in this account we will be glad to adjust same."

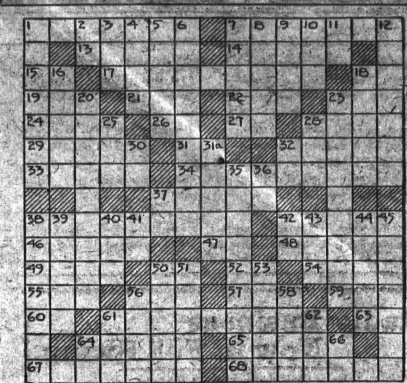

Stenographer—"How do you spell adjust? With a 'g' or 'j'?"

The Boss—"Tell them that we've looked with them long enough and that if they don't pay we'll sue 'em."

Teacher—"Now what is the angle DSO equivalent to?"

Boy (returning from John de Morose)—"The department of street cleaning."

Nebraska Town Discovers Quiet Doctor Was Dime Novel Hero

The obscure little hamlet of Norfolk, Neb., has found for itself fame through the discovery that the quietest of its inhabitants, a doctor, was the hero of a dime novel. The doctor, who has been in the town for many years, was discovered by a local newspaper. The doctor, who has been in the town for many years, was discovered by a local newspaper. Recruiting Reserve Air Force

Enlistment on Voluntary Basis Is Only Experiment

Voluntary recruiting of the special reserve and auxiliary air force squadrons which are to form an important part of the programme of defence against air attack was commenced at the beginning of November, following a speaking campaign by Sir Samuel Hoare, secretary of state for air, in the Kingdom's industrial centres.

This enlistment of the maximum amount of skilled knowledge of aviation in the country on a voluntary basis is only an experiment. Sir Samuel acknowledges, but it is an experiment that must be tried fully, if it is to be of any use.

World's Largest Motor Ship

Sweden Has Most Modern Example of Marine Architecture

A new visitor has made his bow to New York harbor. The new motor ship is the Grönsjö, the largest motor ship in the world, and the largest to fly the flag of Sweden. Flying the house flag of the Swedish American Line, she left Göteborg November 21 on her maiden voyage. The Grönsjö is of 23,500 tons displacement and 5746 feet long. Driven by two giant Diesel engines, she is one of the most unusual vessels afloat, and is the most modern example of marine architecture, burning neither oil nor coal but using electricity throughout the ship—her power, heat and cooking. Her two funnels are partly ornamental and partly for use as elevator shafts.

Probably

Two rounders who had been making a night of it passed a slightest breeze on a street corner.

"Thank fellow's blind and can't see," said one rounder, very approvingly.

"Thank co!" replied the other, in sympathetic tones. "Which matter with the poor chap?"

"I dunno for sure," said the first rounder. "Maybe he's lost his night sight."

"What are them buckets for on the wall in the hall?" asked one Irishman of another.

"Can't ye read? It says on them 'For Fire Only.'"

"Thin why do they put water in them?"

"To keep them from burning."

"To keep them from burning."

THE YEAR WITHOUT A SUMMER

Scientists of France, Canada, Brit-
tain, Sweden and United States are
giving warnings of a summerless year
in 1926-27. That these warnings are
regarded gravely is evidenced by the
interest of a no less distinguished
statistician than Roger Babson, who
includes them in a special bulletin.

These scientists base their belief
in the summerless year on a study
of climatic history. They claim that
the weather, or the earth goes
through a definite cycle in relation to
the other heavenly bodies that influ-
ence its temperature. Other sum-
merless years have been 995, 1558, 1740
and 1816. Crop failures, due to un-
usual frigidity, have brought famines,
plagues and wars in these years.

One meteorologist, Professor Sen-
ander, of Sweden, goes so far as to
assume the probability that another
ice age may be approaching and that
great climatic changes are pending.

Man is still a stranger on this
earth. Of the 800,000,000 or more
years the earth has been in existence,
man has only been present probably
a mere 300,000. He is not yet ac-
quainted with his home. Its idiosyn-
crasies of climate and temperature
have only been guessed at by him.
He is still a pioneer in the universe,
an explorer in the islands of earth.

The human race has been given this
earth as a test-book. To read its
past, interpret its present and intel-
ligently forecast its future are the
tasks to which human mentality is
to be expanded and enriched.

The "wonders of nature" are the
educators of mankind.

And, in the year 1926, we have
hardly got beyond the preface. We
are still in the kindergarten of the
Almighty's school.—E.N.

MACKAY AND REINIKKA MAKE GOOD AT VANCOUVER

When Vancouver Maroons defeated
the Calgary Tigers at Vancouver on
Monday night, the three goals for the
winning team were notched up by
Reg. Mackay and Oliver Reinikka,
formerly of Bellevue and Blairmore
senior hockey teams.

The Vancouver correspondent's re-
port of the game says in part:
Mackay loomed as brightly as the
rock of Gibraltar in the hockey ses-
sion that brought the Maroons and
Tigers together, in a game that
meant much to the boys from the
Alberta city, as he scored the first
goal that gave the Maroons the lead
and scored the fifth goal that gave
his team a 3-2 triumph. And to
make everything sweeter for Patrick,
the fourth goal that made the count
3-2 was notched by Oliver Reinikka,
a former Cannore youth, whom the
Vancouver owner groomed for one
season before giving a place on the
team as a regular.

Patrick thought so much of Mac-
kay's playing for Calgary when the
Tigers opposed the Victoria Cougars
in the final play-off series last spring
that he negotiated a trade, whereby
Mackay came to the Maroons in ex-
change for big Art Duncan, who for
years stood out as a defense star in
western pro hockey.

The pace was very fast throughout.
Vancouver had the edge in the first
period, but were strongly outplayed
in the second stanza only to come
back and turn in championship work
in the last session.

To "Reg" Mackay, belongs the
credit for the Maroon victory. He
scored the opening goal of the

game and also the last one, and in
between times, was getting Winkler
from the corners. Reinikka got the
tying goal when he drew Winkler
out on a combination play with Bou-
cher.

Red Dutton was sent to the side-
lines on three occasions for rough
tactics. Both teams body checked
freely. In the second period, chop-
ping and slashing were indulged in,
Dutton being the visiting team's of-
fender. He also went off in the last
period with Oatman. "Cully" Wil-
son combined with Briden and Harry
Oliver, and were the best team on
the ice for Calgary. Mackay, Bou-
cher and Reinikka were the pick of
the winning aggregation. "Miskey"
Mackay had an "off" night.

DECLARES HOCKEY.

PROSPECTS NOT GOOD

E. D. Battram, secretary of the
C.A.H.A., writes the Lethbridge Her-
ald to the effect that up to December
15th only a few teams had entered
from south of High River, although
many had intended to join up this
season. The only clubs actually af-
filiated are:

Senior—Blairmore and Crows' Nest
Pass.
Intermediate—Michael, Hillcrest,
High River and Okotoks.
Junior—High River, Nanton and
Okotoks.
Juvenile and Midgets—Blairmore.
Bellevue juveniles also promised to
affiliate.

The news was broadcasted the
early part of the week of the sudden
death of Santa Claus somewhere
along the route of the proposed Hus-
ton Bay railway. In his absence,
however, thousands of substitutes are
being used.

Superintendent Jungert, of the R.C.
M.P., left this week for Ottawa. He
was accompanied by Mrs. Jungert and
family, who will visit in Yorkton and
will be joined there for the Christmas
season by the superintendent.—Leth-
bridge Herald.

SWING YOUR PARTNER

The tap-tap of the fiddler's toe and heel and the sing-song humor of the caller as he sang out his commands and directed the progress of the dance, remain indelibly stamped on the minds of many a man and woman.

A school for square dancers, to be conducted in a simple way, with a friendly atmosphere prevailing, has been started by Henry Ford. Mr. Ford probably feels, as do thousands of other old timers—we are sure Mr. Ford won't object to being called an old timer—that he cannot stand the gyrations or, on the other hand, the no-motion one-spot struggle of the modern dance. Mr. Ford has gone so far as to employ a dancing master to instruct his friends in the old dances.

Tiring of jazz, America may in time come back to the old-fashioned square dance. When it does, the youth of the country will dance in a manner more graceful and requiring more skill than any terpsichorean effort which has been put forth during this jazz age. —Ex.

GOD SAVE THE KING.

Mrs. Ennis—"Sam, what on earth are you wearing all those coats for?" Sam—"Well, I'm going to paint the barn and the directions say: to get the best results put on three coats!"

ACCIDENTS DO HAPPEN!

The golfer nonchalantly stepped up to the tee and swung one of those carelessly careful drives. The ball sailed straight down the fairway, leaped gaily across the green and dived into the hole like a prairie dog.

"What have you suddenly gone crazy about?" enquired the golfer's wife, who was trying to learn something about the game.

"Why, I just made a hole in one!" yelled the golfer as he essayed a double handpicking with a wild gleam of delight in his eyes.

"Did you?" sweetly said the little woman. "Please do it again, dear. I didn't see you."

An Irishman placed a sign on his house—"Mason and Contractor."

"That's a good one," said Pat, who immediately put a sign on his house—"Knights of Columbus and Carpenter."

Passenger (formerly telephone girl) —"Why didn't you call me as I told you?"

Porter—"Ah did, lady. Ah sho' did. Ah said 'seben-thirty, ma'am,' and you said 'Linek busy'."

Teacher—"John, why is the English language called the mother tongue?"

John—"Because father never gets a chance to use it."

Anewly-married man, who just returned from his wedding tour, was returning to work the other morning when he was greeted by his friends with the following remark: "Glad to see you back! How did you enjoy your holiday?" etc.

Reply—"Oh, had a fine time, though it was tiring, worse than being back at work here!"

His friends, having preceded him in the same venture by many long years, further greeted him by a hearty applause.

Does This Sound Familiar?

"Went home about three the other morning and, just as I got into our room, I heard my wife moving in bed, and I knew she was awake and waiting for me, so I sneaked over to the cradle and commenced rocking it. She let me rock it for a long time, then she said:

"Is that you, old man?"

"Yes, Petty," I said.

"What are you doing over there?" "Rocking the cradle," I said. "The baby was restless and I didn't want him to wake you up, so I got up out of bed and came over here to rock him to sleep."

"How long have you been rocking that cradle?" she said.

"About an hour," I said.

"Well," she said, "you may as well come to bed now, for I've got the baby in bed with me."

A Saving Style

She was trying to reason with the poor boob on the day the monthly bills came in.

"You see, I simply had to have all these new things. Everything's Egyptian now that they've dug up Tut-Ankh-Amen, and—

"Yeah?" growled the brute. "Well, all I gotta say is, I hope they dig up Adam next—that's all I gotta say."

Here and There

The sea fish catch on both coasts in Canada for the nine months ending September, 1925, was worth \$19,987,976, as compared with \$18,118,486 for the same of 1924, an increase of \$1,869,490.

A gold medal has been awarded to the Canadian Pacific Railway for the Company's exhibit at the Canadian National Exhibition this year. On one side of the medal is a portrait of the Hon. Howard Ferguson, Premier of Ontario, while on the other is a scene on the exhibition grounds.

E. W. Hasty, chairman of the Canadian Pacific Dominion, stated recently that more liners of the "M" type would be built to replace older liners, such as the Marloch, Marburn and Montreal. The new ships will be similar in all respects to the S.S. Marburn and Montreal. The Marloch, Marburn and Montreal will be sold.

A fish caught in Shuswap Lake, British Columbia, after a forty-minute fight, turned out to be a monster rainbow speckled trout, weighing 17½ pounds, with a length of 28½ inches and a girth of 24½ inches. It was mounted and exhibited in the windows of the Dominion Express Company, Montreal, before being shipped to the owner in England.

Live stock exchanges are to be formed in Montreal to prevent the sharp decrease in the number of cattle. In the period 1920-1924, there was a reduction of 231,000 head of cattle in the provinces of Quebec. Because of the low prices for live stock, the Quebec farmer has refused to face the long period of feeding and tending, and kills the calves.

A seven passenger twin-engine flying boat, which it is said will revolutionize the aerial fire-fighting methods employed by the Government protective patrols, is being tested at the Dominion Government Airports at South Marsh, near Ottawa. If satisfactory it will be flown to Manitoba where it will take on fire preventive duties in one of the most important forest areas.

The 1925 total of dividends paid and declared by gold and silver mining companies in Northern Ontario for the year ended December 31, 1925, was \$2,513,131 over the dividend record of 1924 and constitutes the greatest record for Canadian precious metal mining industries. From 1904 to 1925, since silver was discovered in Cobalt in 1904, and gold found in Porcupine and Kirkland Lake in 1908 and 1910, records show total dividends of \$156,774,198 from these fields. The aggregate profits are now averaging \$1,000,000 a month.

Bettering the world record of 3,447,824 bushels of all grains marketed on C.P.R. western lines Thursday, November 19, A. Hutton, general superintendent of transportation of the system, has reported that 3,559,000 bushels were marketed on Friday, November 20. From August 1 to November 20 inclusive, 148,878,445 bushels of all grains have been marketed at stations adjacent to Canadian Pacific Railway lines as compared to 109,651,186 bushels for the same period last year, an increase of about 35 per cent.

Sponsor of what is confidently expected to be the most brilliant winter season in Quebec, the Winter Sports Club has been launched under the patronage of the Lieutenant-Governor of the Province, Hon. M. Proulx; Hon. L. A. Taschereau, Premier of Quebec; Mayor J. Samson of Quebec, and Mayor Demers of Lévis. The major events of the season are the International College Ski competition on December 20; the International Snow Shoe Convention, February 6-7; and the Quebec Dog Derby, the date for which has not yet been fixed.

CONQUERING HOT TEMPER

(By Dr. C. M. Hincks Medical Director, Canadian National Committee for Mental Hygiene.)

Children ought to have the opportunity of learning to control an outbreak of temper. Do not shield and protect them from friction. They will meet it in later life and opposition is a sort of "tonic" to teach them to master themselves.

They should learn before they are a year old that crying and fits of temper will not get them what they want. Teach them that control and not temper will win their desires.

Whenever possible, an attack of temper should be cut short at the beginning. Petting or indulgence rarely pays. Extreme corporal punishment on the other hand is often a mistake. To ignore the attack or to put the child to bed, is sometimes the best remedy.

In older children the bad habit may be broken by pointing out that anyone who loses his temper makes a fool of himself, loses his dignity and is ridiculous and sometimes a con-

temptible object to his fellows. Nobody likes to make a donkey of himself. "He who conquers himself is greater than he that conquers a city," can be used to encourage a child to acquire self-mastery.

Yankee Cousins Great Travellers

A number of tourists were looking down the crater of Vesuvius. An American gentleman said to his companion: "That looks a good deal like the infernal regions."

A lady, overhearing the remark, said to another: "Good gracious, how these Americans do travel."

Quite recently, a patron of Pat McCrohan's at Calgary found a small pearl in a bowl of oyster soup and the news was soon spread by the newspapers. Now, half the Scotchmen of the city of Calgary are sore with Pat, since they have all paid twenty cents for a bowl of oyster soup and had no such good luck.

MRS. VERIGIN COMING HOME ON MAURETANIA

NEILSON, B.C., Dec. 15.—Mrs. Avdotia Verigin, mother of Peter Verigin II, King-elect of the Canadian Doukhobors, is either on the high seas or in New York, having sailed by the Mauretania from Rotterdam, Holland, December 8th, the liner being due in New York Sunday. Accompanied by the mission sent to Peter in Russia by the British Columbia Doukhobors, consisting of Harry Verichagin and Nick Plotnikoff, she will take the train from Montreal and come directly west to Winnipeg and Verigin, Saskatchewan. After a couple of days in Verigin, where the prairie Doukhobors will officially welcome her, she will come on to Brilliant, where she will receive a royal welcome.

Overheard at a local store counter this week:

W. A. SHERMAN ARRESTED

Some excitement was caused at Fernie on Monday evening, when Mr. W. A. Sherman, ex-president of District 18 of the U.M.W. of A., was placed under arrest by the British Columbia police at the request of the Alberta provincial police. Sherman is charged with refusing to appear in court and give evidence against Drummeheller miners who were charged with offences arising out of the strike last summer. It is said that Sherman claims he did not receive any subpoena to appear and considers the arrest rather high-handed.

The dance put on by the Mispah Temple, Pythian Sisters, at the Miners' hall on Monday night was a complete success, the hall being packed to capacity.

Future Business Men

Two boys were selling lemonade for the same stand. In front of one bowl was a sign: "Five cents a glass." In front of a second bowl was a sign: "Two cents a glass." An old gentleman stopped, looked at the signs, and bought a glass of lemonade at two cents. He smacked his lips and ordered another.

When he had finished he asked: "How do you expect to sell any lemonade at five cents when you offer such a good drink at two cents?"
"Well, mister, it's this way," said one of the boys: "The cat fell in that two-cent bowl about fifteen minutes ago, so we thought we'd better sell it out fast before the news spread too far."

Interpreting a Dream

"Do you believe in dreams, Riley?"
"Of course," was Riley's reply.
"Phwat's it a sign of if a married man dreams he's a bachelor?"
"It's a sign that he's going to meet a great disappointment when he wakes up."

ORDERS EXECUTED DAILY

COWLEY HAPPENINGS

On Sunday evening, Rev. A. A. Lytle, who is representing the British and Foreign Bible Society, gave a very interesting talk on this subject in the Presbyterian church. He also organized a branch of the bible society.

The Masonic hall was crowded on Wednesday evening, there being over a hundred people present at the whole drive, with twenty-four tables at play. The prize winners were as follows: Ladies' first, Mrs. Haines; second, Mrs. Robert Littleton. Gentlemen's first, Willie Mackay; second, David Murphy. The bookies went to Miss Heatherington and John Dewar. Mrs. Swart, Mrs. Morrison and James Irwin were on the committees for the evening. There was fifty-one dollars and fifty cents taken at the door. This drive was held in aid of the Cowley Christmas Tree. After expenses are paid, there will be a balance of forty dollars or more to go towards this fund.

The Ladies' Aid of the United church held a sale of aprons on Monday evening. Mrs. Archie Swart kindly offered her home for the occasion. The call for donations of aprons was very liberally responded to. These were of various cuts and colors, being both useful and dainty. The programme for the evening opened with community singing, which was followed by two solos by Miss Heatherington, both renditions being delivered in a very pleasing style. Rev. Griffith gave a comic reading. Mrs. Robert Littleton also gave a comic number. Misses Ruth Clelland and Marjorie Snaith gave a quaint old song and dance. Next a guessing contest proved a very pleasing number, being rather unique in its origin, as it was composed of thirteen small bags, each filled with spices, etc. from the kitchen. Mrs. C. J. Bundy won ladies' first prize, while Billie Twaddle won first in gents'. The bookies were awarded to Mrs. James Leigh and J. C. Bundy. The sale of the aprons was next in order. Aprons sold readily and netted a handsome little sum. Last, but not least, was the presentation of a beautiful white gold wrist watch, together with a large bouquet of carnations to Mrs. Fred Tustian, as a token of appreciation for services rendered as organist for both the Anglican and United churches for the past several years.

Mrs. Bouthiller made a very able and appropriate speech, followed by a similar one by Rev. Griffith, after which Mrs. George Porter gave Mrs. Tustian the gift. A dainty and delicious luncheon was now partaken of. Doing ample justice to this, many of the party had their fortunes read from the mystic tea-cups. A merry mood prevailed throughout the evening. This occasion proved a huge success.

The tentative hockey schedule of the Crows' Next Pass League has been slightly changed, as follows: January 12th, Coleman at Bellevue; January 15th, Bellevue at Coleman.

Vancouver played a draw, 1-1, at Victoria on December the 9th, and the one goal for Vancouver was shot by Oliver Reinikka.

HILLCREST HAPPENINGS

(Rev.) J. S. Pinder has received sufficiently to leave the hospital.

The erection of a Roman Catholic church at Hillcrest is under way. This is much needed to save the long journey, especially in the winter, to Bellevue.

Hillcrest is being attacked from all sides just now by persons seeking subscriptions for the Lethbridge Herald. One has no longer closed the back door than another one is at the front.

The Hillcrest Amateur Orchestra, twenty-five in number, will assist at the play, "Charley's Aunt," at Blairmore tonight. It is also the intention of the band to compete at the musical festival in Blairmore in 1928, and they are likely some time in the near future to perform at Lethbridge and Calgary.

The election of officers for Turtle Mountain Lodge No. 15, Knights of Pythias, took place in the Castle Hall on Tuesday night. The following were elected for the next term: C.O. - Bro. J. C. Atkinson; V.C. - Bro. C. Carlson; Prelate - Mrs. H. Richards; M. of W. - Bro. D. Walsh; M. of A. - Bro. R. Clarke; K. of R. and S. - Bro. J. C. Topka; M. of F. - Bro. W. Hoar; M. of E. - Bro. H. Henderson; I.G. - Bro. H. Bouda; O.G. - Bro. Ed. Royle.

The following programme was rendered by the Hillcrest Amateur Orchestra at the Rex Theatre, Bellevue, on Sunday evening last to a crowded house:

"Canada First," orchestra.
Overture from "Il Trovatore," orchestra.
Vocal Solo, "O, Loving Father, Mine Jennie Stobbs."
Trio (piano, violin, cello), "Cavalier's Rhapsody" and Moments Musical, Miss M. Horton, Miss R. Moyle and Mrs. H. Stobbs.
"Orpheus on Fire," orchestra.
"Some Pumpkin" (characteristic), orchestra.
Bartoque Solo, waltz, "Farewell," Mr. P. Salt.
Viola Solo by Master Joe Jasbec.
"Waldteufel Waltz," orchestra.
March by orchestra.
"GOD SAVE THE KING."

A grand dance will be given in the Union hall at Frank on the evening of Christmas Day, under the auspices of the Czechoslovakian and Polish citizens. Dancing will commence at 4 p.m. Czech orchestra bide hrat!

Once in a while we get to hear of some would-be prominent citizen of The Pass who is sore with us. We might state right here that we entertain police against no one and sore-heads are the very least of our worries.

A farmer living south of Pincher Creek, who tips the scales at exactly 315 pounds, had the following advertisement appear in last week's issue of the Pincher Creek Echo: "Whoever wants to buy a big, fat hog, come and see me!"

PRESS FOR COAL SHIPMENTS

Active co-operation with the Alberta government in its efforts to secure a permanent arrangement for shipment of Alberta coal to Ontario markets, is being offered by all large organizations in Ontario, including the U.F.O., the Canadian Manufacturers' Association, boards of trade, and others, in conjunction with the Government of Ontario. These bodies are all pressing for some permanent arrangement for the shipment of the coal. J. A. Ellis, fuel controller of Ontario, has the matter up with the Canadian National Railway and other organizations are preparing to press the matter with Ottawa authorities and the C.N.R.

On Saturday the following wire was received by the government from J. E. Walsh, general manager for the Canadian Manufacturers' Association: "At meeting here today decided to press for movement Alberta coal to points in Ontario on permanent basis. Committee understands your government has recent report on cost transportation which would assist them materially in their efforts. Will you please send me all information available on subject."

In answer to this wire the government is supplying all information in its possession. W. P. Hutton, who acted for the Alberta government with the rates committee of the C.N.R. some time ago in the investigation into rates, has been authorized to give Mr. Walsh all information in his possession with respect to cost of transporting the coal.

While police searched the countryside, "Dg." A. T. Blake, known to western Canadian police as the "King of Fakers," and Archie McKenzie, 23-year-old bandit, were comfortably housed a few blocks from the provincial jail at Winnipeg, from which they, along with John Stanton, now under sentence of death for murder, and two other men occupied on the morning of October the 9th.

In honor of Miss E. Radford, a bride-elect of this month, a very pleasant evening was spent at the home of Mr. and Mrs. Charles Emerson at Bellevue on Monday, when Miss Knowles and Miss Emerson entertained at a kitchen shower. During the evening the honored guest was presented with a large number of useful and beautiful presents. The evening was spent in music and games which were enjoyed by all. After this there was a dainty supper served. The guests present were: Miss E. Radford, Miss Knowles, Miss Emerson, Mrs. Hamilton, Mrs. Utley, Miss Laidlaw, Miss Hamilton, Miss Curry, Miss Taylor, Miss Foster, Miss Strathairn, Miss B. Radford, Miss Hulme, Miss Jones, Miss Blinston, Mr. Goodwin, Miss Turner and Miss Davis. The marriage of Miss Radford to Mr. Robert Shevels will take place on Christmas Eve.

A little boy had been invited out to a neighbor's house for a party and the minister's wife asked him to say grace. "Say anything. Say just what your father says."

"Well, this is a bit of a lay out!" responded the boy.
